WORK EXPERIENCE

Arpico Insurance PLC Nov. 2025 – Present

Intern Software Enginner On-Site

- Developed and enhanced enterprise insurance applications using Java, JSP, Spring Boot, React, and MySQL.
- Performed system testing, debugging, SQL query optimization, and database analysis.
- Worked with Jasper Reports, GlassFish Server, Linux, Docker, and cloud environments for deployment and troubleshooting.
- Developed automation workflows using n8n and Apache Airflow for data processing and migration.
- Created technical documentation, system analysis reports, and workflow diagrams.

Sri Lanka Telecom PLC Jul. 2024 – Oct. 2024

Software Technology Intern On-Site

- Worked with billing and customer management systems in the SLT Teleshop environment.
- Handled customer inquiries, bill operations, account updates, and service-related requests.
- Gained experience in cashier operations, system workflows, and customer support.

EDUCATION

University of Vocational Technology May 2023 – Present

B.Tech (Hons) in Software Technology

H/Weeraketiya Rajapaksha Central College 2017 - 2021

Technology Stream | Z Score: 0.8760 | ICT – C | SFT – C | ET – C

PROJECTS

Boarding Bill System

Technologies: HTML, CSS, JavaScript, Firebase Authentication, Cloud Firestore

Developed a web-based boarding bill management system with user authentication, bill tracking, and an admin dashboard using Firebase Authentication and Cloud Firestore. [\(Live Demo\)](#)

AI Code Reviewer

Technologies: React, Node.js, Express.js, PostgreSQL, Prisma, OpenRouter API

Built an AI-powered code review platform that analyzes source code, identifies issues, and provides improvement suggestions using AI models.

To-Do Application

Technologies: React, Spring Boot, H2 Database

Developed a full-stack task management application with CRUD operations using React frontend, Spring Boot REST APIs, and H2 database.

Chat Application

Technologies: Node.js, Express.js, Socket.io, MySQL, HTML, CSS

Developed a real-time messaging application with Socket.io for instant communication and MySQL-based message storage.

Student Management System

Technologies: PHP, MySQL, MVC Architecture

Developed a web-based student management application with authentication, data management, and reporting features using MVC architecture.

Employee Management System

Technologies: C#, SQL Server

Built an employee management system with employee records, payroll management, leave tracking, and optimized database queries.

CERTIFICATIONS, SKILLS, TECHNOLOGIES & INTERESTS

Certifications:

- **Programming in Python** – University of Moratuwa ([E Certificate](#) - 6W48Xvl1WH)
- **Web Development** – University of Moratuwa ([E Certificate](#) - dIJWV1EflW)
- **FrontEnd Web Development** – University of Moratuwa ([E Certificate](#) - lC7STUs4U7)
- **React JS** – Techiskole.lk

Technical Skills:

- **Programming Languages:** Java, Python, JavaScript, C++, C#
- **Web Development:** HTML, CSS, JavaScript, React
- **Database Management:** MySQL, MongoDB, PostgreSQL
- **Software Engineering:** OOP, Design Patterns, SDLC, Agile Methodology

Soft Skills:

- Problem Solving, Analytical Thinking, Communication & Teamwork, Adaptability
